

About the Catalog

This catalog contains the basic information about UC Santa Cruz. A complete list of academic programs and concentrations, both graduate and undergraduate, appears on pages 8–9.

The next part of the catalog, pages 10–102, is divided into sections describing various aspects of the campus: undergraduate admission and financial information, the undergraduate academic program (including advising and support services), graduate education (including information on graduate student admission, expenses, and financial support), research programs and facilities, and the ten residential colleges and student life.

The academic programs and courses offered at UCSC are described in detail on pages 103–418. The listings are alphabetical, with appropriate cross-references.

The Santa Cruz teaching staff and their academic qualifications, the University of California administration, and the Santa Cruz campus administrative staff appear on pages 419–452.

The catalog constitutes the campus's document of record. While every effort is made to ensure the correctness and timeliness of information contained in this catalog, changes are likely to occur after publication. On an ongoing basis, the university is examining ways to bring the greatest possible efficiency to the delivery of its programs and curricula. This process may result in changes in services, teaching and administrative staff, and curricula and courses that could not be reflected

in this catalog, which was prepared well in advance of the 2006–08 academic years. Updates to catalog information are available in the quarterly *Schedule of Classes*, which is on the World Wide Web at reg.ucsc.edu/soc/. (Additional web sites are referenced throughout this catalog. However, they are maintained by individual units and may not reflect approved general information, curricula, or course information.) In addition, several publications are available that include detailed information about specific subjects such as graduate programs, housing, and financial aid. Each college issues a handbook.

It is the responsibility of the individual student to become familiar with the announcements and regulations of the university that are printed in this catalog and other campus publications. The catalog is the document of record for undergraduate major requirements. It is updated annually on the web at reg.ucsc.edu/catalog.

More detailed information on particular subjects is available from appropriate campus units. (A list of key phone numbers appears on the inside back cover.) Most office hours are Monday through Friday, 8 A.M. to noon and 1 to 5 P.M. during the academic year; most offices close from noon to 1 P.M. and on weekends and holidays.
