

## PETITION FOR CHANGE OF COLLEGE

The decision to change from one college to another should be made thoughtfully as this change will affect important areas of your life. You will have new academic advisers, a new college address, and you will graduate with your new college. If you are going to live on campus, you will also be a part of a new residential community.

An approved change of college petition does not guarantee housing at your new college and may void your housing guarantee. Additionally, a change of college for winter or spring quarter does not void your housing contract. If you live on campus and are considering a change of college, you should discuss this with the residential life coordinator at your **current** college and the **prospective** college in which you are interested.

**NOTE: YOUR REQUEST TO CHANGE COLLEGES MAY BE DENIED BY EITHER THE CURRENT OR PROSPECTIVE COLLEGE IF:**

- You are a senior. Seniors must be affiliated with their new colleges for at least two quarters (prior to and including spring) in order to participate in the graduation ceremony.
- You are not in good academic standing. If your academic standing drops after you have filed your petition, your request to change colleges may be denied.
- You did not complete your college's core course—if applicable.
- You were previously subject to disciplinary action and/or if action is still pending.
- You missed the Change of College deadline.
