Office hours: Wednesdays 2-3 PM OPEN then 3-4 PM by appointment only .

REQUIRED TEXT:

Human Diseases: A Systemic Approach. Mulvihill, Mary Lou, et al. 6th Edition. 2006. Prentice Hall. New Jersey.

Enrollment Notes: It is your responsibility to be correctly enrolled **for both the lecture AND discussion sections** associated with this course.

PERMISSION CODES ARE NOT AVAILABLE FOR THIS COURSE since AIS is constantly updating space availability. *Last day to enter the class is April 7.* Last day to change grade option is April 17. The last day to withdraw from the course is May 11.

Section attendance and participation is required. If you have 2 un-excused absences for section you will automatically fail the course. It is **strongly recommended** that you attend ALL lecture sessions. You **CANNOT PASS** this course **without meeting the deadlines for and turning in** health topic paper outline, rough draft, clean copy for peer-review, final copy with a rough draft and completed self-evaluation, travel itinerary abstract-outline and final paper, quiz questions, and journal article summaries. There is also an oral section presentation requirement for this course. **There will be 5 quizzes and 2 exams. Any evidence of plagiarism found on ANY of the written assignments is grounds for dismissal from the University.**

You are **responsible for all the readings** in the required texts, this course syllabus, *even if it is not covered in lecture,* and any supplemental lecture material or guest speaker materials.

The syllabus will list the week, date, lecture topics, exam dates and the section information indicates which assignments are due and which quiz will be given. Reading list, assignment instructions and most lecture outline notes are also included in this Reader.

Tuesday lectures have an “(A)” next to the date and Thursday lectures have a “(B)” noted.

All the information in this syllabus including Reader content, assignment instructions, and lecture outlines is also available through the library eRES site. Many of the class lectures will also be available on Web/PodCast for review.
